

Sharing Experiences of Presenting International Research Outcomes in Civil and Hydraulic Engineering (November 21, 2024, NTUST)

Dear esteemed scholars and peers,

Following last year's (2023) publication of the "Ranking Report of International Journals in Civil and Hydraulic Engineering" based on feedback from domestic and international experts, aimed at assisting scholars in selecting journals for future submissions, the Civil and Hydraulic Engineering Program of the National Science and Technology Council (NSTC) will continue its efforts in 2024. To further support researchers in improving their success rates when submitting to international journals and conferences, the program will host the "Sharing Experiences of Presenting International Research Outcomes in Civil and Hydraulic Engineering" on November 21, 2024 (Thursday).

Given the distinct characteristics of various specialized fields, research and development emphases also differ. Therefore, scholars from different subfields within the program (Structural Engineering, Structural Materials, Hydraulic Ecology, Transportation, Geotechnical Engineering, Urban and Building Design, Surveying and Mapping, Civil Engineering Materials, Construction Management, and Information Technology) who serve as editorial board members of international journals are invited to share their academic experiences through keynote speeches and open discussions. Topics will include drafting research themes, manuscript preparation, submission, peer review, revisions, proofreading, publication, and continuing future research directions throughout the life cycle of an academic paper.

Editors-in-chief and editorial board members from prominent international journals like Elsevier and ASCE will also be invited to provide critical insights into the submission process and peer review methods, making this seminar highly valuable for graduate students, professors, and researchers in the field of civil and hydraulic engineering looking to serve as reputable international journals' editorial board members or submit their work to the global academic community. We welcome your participation!

Seminar Details:

- **Seminar Title:** Sharing Experiences of Presenting International Research Outcomes in Civil and Hydraulic Engineering
- **Event Date:** November 21, 2024 (Thursday), 13:20 (Admission opens at 12:30)
- **Venue:** 3rd Floor, Room 301 (IB301), International Building, National Taiwan University of Science and Technology
- **Registration Link:** <https://forms.gle/BE96XgJDZB7uGfHv8>

Seminar Agenda:

13:20	The Value and Experience Sharing of International Research Presentation Jui-Sheng Chou, Chair Professor, National Taiwan University of Science and Technology, and Chair of the Civil & Hydraulic Engineering Program, National Science and Technology Council
13:40	(Structural Engineering) Associate Editor of ASCE journal and Co-Editor of Journal of the Chinese Institute of Engineers Yu-Chen Ou, Director of National Center for Research on Earthquake Engineering, and Distinguished Professor, National Taiwan University

14:00	(Structural Materials) Associate Editor of ASCE journal and Guest Editor of Elsevier journal Chung-Chan Hung, Distinguished Professor, National Cheng Kung University
14:20	(Hydraulic Ecology) Editor-in-Chief of Elsevier journal, Associate Editor of ASCE journal, Editorial Board Member of Springer Nature journal Christina W. Tsai, Distinguished Professor, National Taiwan University
14:40	(Transportation) Associate Editor of Elsevier journal Chung-Cheng Lu, Distinguished Professor, National Yang Ming Chiao Tung University
15:00	(Geotechnical Engineering) Assistant Editor of Taylor & Francis journal Chi-Chin Tsai, Distinguished Professor, National Chung Hsing University
15:20	(Architecture and Urban Studies) Sharing Experiences of Presenting International Research Outcomes in the Field of Architecture and Urbanism Jen-Chun Wang, Distinguished Professor and Director of Research and Development, National Kaohsiung Normal University
15:40	(Surveying and Mapping) Associate Editor of ASCE journal Jen-Yu Han, Professor, National Taiwan University, and Chair of Spatial Technology Program, National Science and Technology Council
16:00	(Civil Materials) Sharing Experiences of Presenting International Research Outcomes in the Field of Civil Materials Wen-Cheng Liao, Professor and Vice President for General Affairs, National Taiwan University
16:20	(Construction Management) Associate Editor of Elsevier journal Wen-Der Yu, Distinguished Professor, Chaoyang University of Technology
16:40	(Information Technology) Assistant Editor of Springer Nature journal, Advisory Board Member of ASCE Jieh-Haur Chen, Distinguished Professor, National Central University
17:00	Panel Discussion Q&A (Bilingual: Chinese and English)

Organizers: Civil and Hydraulic Engineering Program, NSTC; National Taiwan University of Science and Technology; Taiwan Construction Management Association.
